The extent and nature of work areas (within the work area limits) are to be developed and confirmed by the contractor during tender and prior to construction commencing.

A single road lane shall remain open to traffic at all times except for short duration critical activities approved by the Engineer. Contractor to provide traffic management plan.

Erosion and sediment control measures shall conform to NCC standards and resource consent conditions. The extent and nature of these measures shall be developed and confirmed by the Contractor prior to commencing construction.

Total area shown within working area limit is approximately 0.21ha. (Site 16 to Site 19)

Stabilised construction entrances to be installed if vehicles traffic onto disturbed land (Refer NCC SD905).

SECTION 1
SCALE 1:50

NOTE CONTINUED

4. Prior to commencing any excavation work the Contractor shall provide a method statement detailing their proposed method of construction to ensure the fibre optic cable is to be protected at all times. The method statement is to be approved by the Engineer and Transfield prior to commencement of work on the site.

NOTES :

- All dimensions are in millimetres unless noted otherwise.
- Contractor to confirm with Engineer the extent of bank trimming works prior to commencement.
- Services and service locations shown on this plan are indicative only. Other services may be present but not shown on this plan. The Contractor shall be responsible for notifying, locating, protecting and relocating all services on the site.
